Make 42!

Equipment:

A set of 10 - 18 cards
A playing square

Rules:

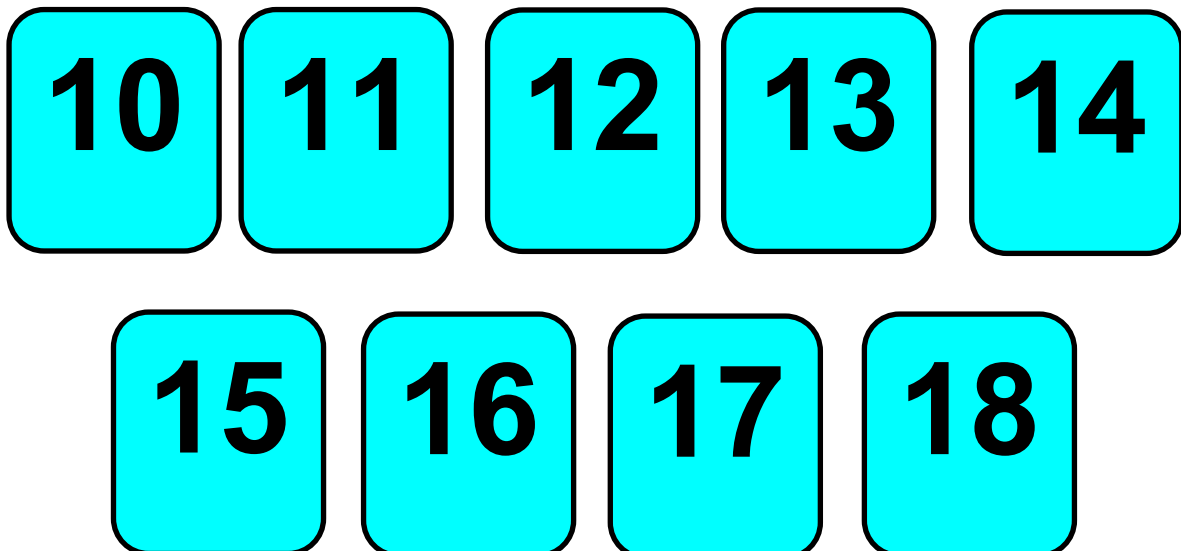

This is a game for two people using the idea of a magic square.

The aim of the game is to make a line of three come to 42.

The line can be across, down or diagonal.

The cards are shuffled and placed face down. Player one takes a card and places it on one of the squares. Player two follows this.

A set of 10 - 18 cards are found below. They can be cut out and laminated, or printed on card.

Make 42

Rules:

This is a game for two people.
The aim of the game is to make a line of three come to 42.
The line can be across, down or diagonal.
The cards are shuffled and placed face down.
Player one takes a card and places it on one of the squares. Player two follows this.
The player who puts a card down which makes 42 is the winner.
If neither player can make 42 the game is drawn.

If I'm lucky I can win if I go first.
