

Matchstick puzzle 12

6, 9, Squares

You need 24 matchsticks for this puzzle.

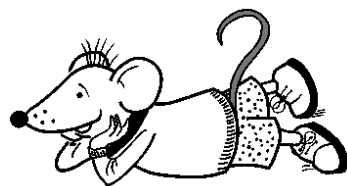

Can you make six squares out of these 24 matchsticks?

A clue: the squares may not all be the same size!!

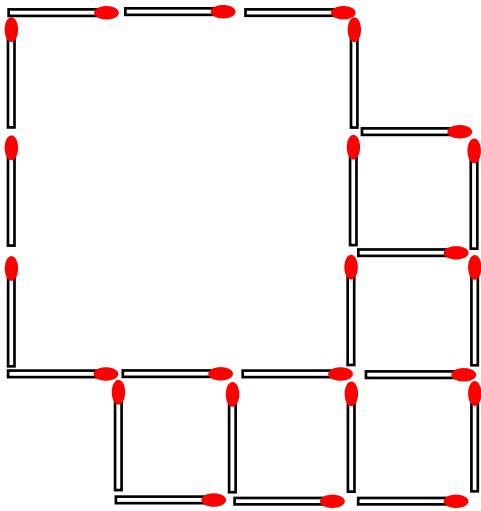

And to be absolutely amazing can you make 9 squares?

6 and 9 eh.....
tricky!

Matchstick puzzle 12 - answer

6, 9, squares

Here are
6 squares

and 9 squares
(2 large and 7 small)
