Initial numbers

Have a go at these! Each number has some initials after it. Just work out what the initials mean as the numbers are the clues.

For example: 7 D in a W is 7 Days in a Week.

A good score is 12, but if you get them all right - excellent indeed!

- 26 L in the A
- 7 C in the R
- 6 W of H the E
- 7 S on a F P P
- 1000 M in a K
